

**PUBLIC UTILITIES BOARD
POLICY AND BILLING RATES FOR
ADVISORY SERVICES**

July 24, 2017

This document supersedes all previous Board Advisor policy and billing policy documents.

PREAMBLE:

The Public Utilities Board (Board) requires various professional support and/or advisory services (“advisory services”) in order to fulfill its responsibilities.

Pursuant to the Public Utilities Board Act, the Public Utilities Board has the authority to appoint external advisors (“Advisors”) to provide those services.

The Board obtains advisory services from professionals trained in the following disciplines: law, accounting and engineering. In addition, advisory services may be required from professionals of other disciplines (e.g. actuarial science, economics, public policy, communications etc) or individuals with the necessary expertise to support the Board in its consideration of issues or applications.

APPOINTMENT OF ADVISORS:

All appointments of Advisors are made by the Board.

When deciding on Advisor appointments, Board members are subject to the Board’s Conflict of Interest Policy.

In obtaining advisory services, the Board may directly appoint an individual or firm or seek competitive proposals. If a firm is selected, the firm will be considered the Advisor however the Board will approve the individual or individuals of that firm to provide the advisory services. Alternatively, the Board may decide to seek competitive proposals for advisory services. The decision to directly appoint or seek competitive proposals, or terminate an appointment, is entirely within the Board’s discretion.

The Board may appoint an Advisor to serve on a continuing basis as needed or may appoint an Advisor for a defined period or for a specific project.

The scope of services to be provided by an Advisor will be set out in writing and approved by the Board and the Advisor and may be revised from time to time upon request of the Board.

An agreement with an Advisor does not obligate the Board to use the services of an Advisor or guarantee the Advisor a certain amount of work. The use of an Advisor’s services on a continuing

basis will be based on the Board's need for services and the continuing satisfactory performance of the Advisor.

The number and use of Advisors will be determined based on the required expertise and associated workload.

Each Advisor will be responsible for succession planning to ensure that he or she has a backup to meet PUB demands. The Advisor will bear the costs of training the backup, unless otherwise approved by the PUB in advance.

The Chair, or a designated staff, will conduct an annual review of each Advisor and provide a report to the Board with recommendations on continued use of the Advisor and the possible scope of advisory services. At the annual review, the current advisor billing rate may be reviewed and adjusted based on advisor seniority and services provided to the Board.

Either the Board or the Advisor may terminate the relationship upon a minimum of three (3) months written notice to the other party but the Board may terminate the services of an Advisor on immediate notice if the Advisor has acted in a manner that the Board determines would constitute 'just cause'.

Advisors will report to the Executive Director or his/her designate who will also direct their work, including assigning specific tasks.

The Board will appoint a legal counsel from among the Board's legal advisors to serve as Board Counsel.

The Advisors must produce such records to the Board or Canada Revenue Agency upon request. Travel expenses must be pre-approved by the Board. Expenses incurred will be in accordance with the Manitoba Government Travel Policy guidelines unless otherwise approved by the Board.

REMUNERATION:

In appointing an individual or firm as an advisor, the Board will decide which remuneration formula will apply:

- Fixed rate in accordance with the Board's advisory services hourly fee schedule (see attached), as amended from time to time; or
- Established via a competitive process; or
- Negotiated with the firm or individual providing the service prior to appointment.

In selecting the rate formula for advisory services, the Board will consider various factors such as the specialty or profession, the nature of the appointment (limited in time and scope or continuing service), market rates for the service and the unique expertise of the individual or firm. The rate formula applicable to an advisor may be varied by the Board at its sole discretion. Board staff will decide at what step the fee will be within the maximum for that step.

Base salary is assumed to be for a starting professional with little or no experience.

Any variation to the fees describe in the attached table will have to be approved by the Board.

The Board may decide to approve more than one individual or firm with the necessary expertise or professional accreditation to provide similar advisory services.

The Board may amend this policy and accompanying rate schedule without notice and it will become effective and apply to each of the Advisors upon written notice of the change to the Advisor(s).
