Dear Sir/Madam:

Re: IEC Reports of Daymark Energy Advisors (“Daymark”) – CSI Process

Further to our recent telephone discussions regarding the reports of Daymark and the manner in which the CSI identified by Manitoba Hydro within those reports should be dealt with going forward we write to confirm the following:

- Daymark takes no issue with the CSI redactions of Manitoba Hydro;
- Manitoba Hydro has advised that the redaction codes utilized by Manitoba Hydro within the reports are in fact the redaction codes which appear at Appendix A to Manitoba Hydro's recent CSI motion for second round IR's dated November 21, 2017.

Should the PUB disagree with Manitoba Hydro's redactions then I ask that both Daymark and Manitoba Hydro be advised of this position. A discussion can then occur as to the process to be followed.

Yours very truly,

DUBOFF EDWARDS HAIGHT & SCHACHTER
