

2017/18 & 2018/19 ELECTRIC GENERAL RATE APPLICATION

Manitoba Hydro Undertaking #14

Manitoba Hydro to provide a list of rate increases for different jurisdictions in Canada.

Response:

Please see the table below outlining the assumptions used in the bill calculations in slide 19 and 20 of the Cost of Service, Rate Design & Bill Affordability Panel presentation.

Residential Bill Assumptions		
	2017/18	2018/19¹
Winnipeg	3.36%	7.9%
Montreal	0.7%	1.1%
Vancouver	3.5%	3.0%
St. John's²	8.1%	-
Moncton	2.07%	2.33%
Regina	3.5%	5.0%
Halifax	1.7%	1.7%
¹ Proposed rate increases for 2018/19. ² The 2018/19 bill was assumed to increase in line with inflation at 2%. ³ The generation, transmission and distribution functions are undertaken by separate entities in Alberta and Ontario. As a result, an overall rate change for 2017/18 or 2018/19 is not available. The 2017/18 bills for Toronto, Ottawa and Calgary were calculated based on rates as of November 14, 2017, and the 2018/19 bills were assumed to increase in line with inflation at 2%.		

General Service large > 100kV Bills Assumptions		
	2017/18	2018/19¹
Manitoba Hydro	3.36%	7.9%
Newfoundland & Labrador Hydro²	-	6.2%
Hydro-Quebec	0.2%	0.8%
BC Hydro	3.5%	3.0%
SaskPower	3.5%	5.0%
New Brunswick Power	1.77%	2.0%
Halifax	1.4%	1.4%
¹ Proposed rate increases for 2018/19. ² The 2017/18 bill for Newfoundland & Labrador Hydro was calculated based on rates as of January 24, 2017, reflecting rate rider adjustments. An overall percentage rate increase was not published by the utility. ³ The 2017/18 bill for Hydro Ottawa was calculated based on rates as of May 1, 2017, and the 2018/19 bill was assumed to increase in line with inflation at 2%.
