
2017/18 & 2018/19 ELECTRIC GENERAL RATE APPLICATION**Manitoba Hydro Undertaking #20**

Manitoba Hydro to provide the explanation of why the marginal value for distribution has changed under the new methodology.

Response:

The marginal value for distribution has not changed under the new methodology. As explained in the response to COALITION/MH II-35c, the distribution marginal cost final report provided in response GAC/MH I-39 contained the figure 58.12 \$/kW-yr. In the updated marginal value PUB/MH II II-57R, the 2015 values were escalated to 2017 dollars.

Distribution Marginal Cost
