

Subject: Efficiency Manitoba 2020/23 Plan - Daymark Extension Request
Date: December-06-19 4:20:29 PM
Importance: High

Dear Mr. Christle,

As you know our office represents Daymark in this matter. Please accept this email as our Motion for an extension to file Daymark's report by noon CST on Tuesday December 10, 2019.

Our client has advised us that it only received a number of important work papers this week, in particular relating to Codes and Standards, when it had been expecting them prior to the filing of IR's. Our client has received great assistance from Efficiency Manitoba during the term of this project, and is thankful for Efficiency Manitoba's efforts, but unfortunately this has slowed down Daymark's work to some extent.

The current deadline for the report is December 9, 2019. An extension to noon CST on December 10th would be have a significant impact on this project and the final product.

We hereby request that the PUB grant the above noted extension request. Thank you for your consideration.

Yours truly,

William Gardner
