

At his Report PDF pages 51-54, Mr. Harper summarizes his conclusions and recommendations. Where remedial action is suggested, Mr. Harper is requested to please indicate whether the recommendation for each item is:

- No action needed,
- Revise 2020-23 Plan before final approval is given,
- Delegate to the EEAG for EM to develop the remedy with input from the EEAG so that an acceptable remedy can be incorporated into the current Plan while it is being implemented,
- Delegate to EEAG for EM to develop the remedy with input from the EEAG so that an acceptable remedy can be incorporate into the next Plan,
- EM address in next Plan without EEAG or other stakeholder input, or
- Other
