Feedback

Canada Government Bond 10Y

Generally, a government bond is issued by a national government and is denominated in the country's own currency. Bonds issued by national governments in foreign currencies are normally referred to as sovereign bonds. The yield required by investors to loan funds to governments reflects inflation expectations and the likelihood that the debt will be repaid. This page provides - Canada Government Bond 10Y - actual values, historical data, forecast, chart, statistics, economic calendar and news. Canada Government Bond 10Y - actual data, historical chart and calendar of releases - was last updated on October of 2019.
