

**2021/22 INTERIM RATE APPLICATION****Manitoba Hydro Undertaking #4****How many Full-time Equivalents does Manitoba Hydro have at Keeyask?****Response:**

Of the approximately 550 employees currently at Keeyask, approximately 50 are Manitoba Hydro employees and the remainder are contractor staff. There are also approximately 35 FTEs supporting the Keeyask project from Winnipeg. Over the next few years, the project will continue to wind down to the point that there will be no staff dedicated to the Keeyask capital project.

All Manitoba Hydro employees are eligible to bid on job postings and therefore it is difficult to identify how many of the staff currently working on the Keeyask Project will leave Manitoba Hydro once the project is complete.

Manitoba Hydro is not increasing its FTE count due to holding onto project staff. Any employees that remain after the project is completed will have secured positions in other areas through the HR process.
