Undertaking #38.1

MPI to advise what the projected time frame would be for DSR using the same timelines as were used for the Reserves Regulation.

RESPONSE:

The process and steps taken to create regulations vary from regulation to regulation. Although there is a high-level consistent process two separate regulations may, based upon a multitude of factors, go through different steps and timelines. For example, the Government of Manitoba approved the concepts of both the *Reserve Regulation 76/2019* and the *Automobile Insurance Coverage Regulation* amendment 37/2020 (CERP) in October, 2018. The *Reserve Regulation 76/2019* was approved by Order in Council on April 12, 2019, 6 months after the concept approval. The *Automobile Insurance Coverage Regulation* amendment 37/2020 (CERP) was approved by Order in Council on May 7, 2020, 19 months after the concept approval.
