**Undertaking #37**

MPI to advise if a review of the Experienced Rider Program by late fall 2019 was completed and the results shared in the 2021 GRA.

**RESPONSE:**

Since 2012, only two classes with a total of 12 participants have completed Safety Services Manitoba's Experienced Rider Program (including one class with 9 national defense employees). Due to this very small sample size, a formal business case review of the program's efficacy in reducing claims, collisions and convictions is not possible.

Accordingly, the previously planned program review was neither completed in fall 2019 nor shared in the 2021 GRA.
