Dear Mr. Czarnecki:

**Re: Centra Gas Manitoba Inc. (Centra) Application to Modify Large General Service (LGS) for New Grain Drying Customers**

On April 29, 2022, the Public Utilities Board of Manitoba (Board) received an application from Centra to modify the LGS for new grain drying customers, because of requests received from agricultural customers inquiring about natural gas service.

The Board has viewed the application and prepared the attached list of Information Requests for Centra that will assist the Board with further review. Once the Board has received the responses to the Information Requests from Centra, the Board will provide the Application and Information Requests with responses to Interveners of Past Record.

The Board requests that Centra respond to the attached Information Requests on or before June 6, 2022.

Should there be any questions of clarification, please send your written requests to the attention of the writer.

Regards,

Rachel McMillin  
A/Associate Secretary
