**Re: Manitoba Hydro 2023/24 and 2024/25 General Rate Application
January 9, 2023 Submission from Manitoba Hydro re Information Requests**

The Public Utilities Board (“Board”) is in receipt of Manitoba Hydro’s correspondence of January 9, 2023 in which the utility submits that several Round I Information Requests should either be considered out of scope or are unreasonably broad. Based on a review of the letter, the Board has determined that it is unnecessary to hold an oral motions day at this time.

As in previous hearings, the Board encourages the parties to informally discuss and cooperatively resolve scoping matters related to Information Requests.

Should it not be possible for the parties to resolve the concerns addressed in Manitoba Hydro’s letter, the Board requests affected Interveners to provide written responding submissions to the Board in writing by **Friday, January 13, 2023**, with reply submissions (if any) by Manitoba Hydro due on **Monday, January 16, 2023**. Following the receipt of those submissions, the Board is prepared to adjudicate this matter.

If affected Interveners are able to resolve the matter with Manitoba Hydro informally, please provide confirmation to the Board that no ruling will be sought.

Regards,

A handwritten signature in black ink, appearing to read "R McMillin". The signature is fluid and cursive, with the first letter "R" being particularly large and stylized.

Rachel McMillin
Associate Secretary
