1.0 EXECUTIVE SUMMARY

By this Order, the Public Utilities Board (“Board”) approves, on an interim *ex parte* basis, an increase in the propane commodity rate from \$0.9725/m³ reflected in current rates to \$1.1191/m³ for propane consumed on or after August 1, 2018 for Stittco Utilities Man Ltd. (“Stittco”). The increase represents the recovery of Stittco’s higher costs for propane that it passes through to customers without markup.

The commodity rate increase, along with approved delivery charges, is expected to increase the average overall residential propane monthly bills by approximately 6% when compared to the previously approved propane rate effective May 1, 2018. Actual customer impacts will depend on propane consumption.

The table below compares propane commodity rates and delivery charges over the last year:

	Aug 1/17	Nov 1/17	Jan 1/18	Feb 1/18	May 1/18	Aug 1/18

*As approved in Board Order 158/16

**As approved in Board Order 116/17 (including the Order 158/16 rate riders)

***As approved in Board Order 144/17

Commodity rates are adjusted every quarter in accordance with the Quarterly Rate Setting process approved by the Board in Orders 141/08 and 45/09 (available for review on the Board’s website). Interim commodity Orders are reviewed and finalized annually,

typically when Stittco files its annual non-commodity rate application. Board Order 57/18, dated April 26, 2018, is the most recent Order setting Stittco's commodity rate.

In addition to propane commodity rates, Stittco customers are also assessed delivery charges (non-commodity charges) and a Basic Monthly Charge (administration costs). Delivery charges, and the Basic Monthly Charge, are reviewed annually when Stittco files its non-commodity rate application (typically in July of each year). Board Order 144/17 approved revisions to the delivery charges for rates effective January 1, 2018.

2.0 INTRODUCTION

The commodity portion of Stittco's overall propane rates is amended quarterly, in accordance with the Quarterly Rate Setting ("QRS") process. Non-commodity costs, or delivery charges, are set annually and are designed to recover the costs incurred by Stittco for the distribution of propane to customers. Delivery charges were last amended in Board Order No. 144/17 for propane consumed after January 1, 2018.

Commodity costs, including transportation to Thompson, are passed on to customers with no mark-up. Prices of the purchased commodity may vary because of market conditions; they may be higher or lower than price levels established by Board Order. The differences are tracked in a Purchased Propane Variance Account ("PPVA"), and either refunded to, or collected from, customers in subsequent rate settings. Regular adjustments to commodity prices help to minimize balances in this account and can help buffer large swings in propane commodity charges. Order 57/18, dated April 26, 2018, is the most recent Order setting Stittco's commodity rate.

Rates established by the QRS are set on an interim *ex parte* basis, which means that they are established by the Board without further public consultation, subject to satisfactory information being filed by Stittco with the Board. This approach is considered to be the most reasonable and economical, as the changes are driven by commodity price fluctuations and the process minimizes regulatory costs while providing regular updated price signals to consumers. The quarterly interim commodity rates are reviewed and finalized annually when Stittco files its annual non-commodity rate application.

3.0 APPLICATION

On July 16, 2018, Stittco filed an application seeking an increase in the propane commodity rate from the current rate of \$0.9725/m³ to \$1.1191/m³ effective August 1, 2018. This new rate reflects the higher costs that Stittco pays for propane, which are passed on to customers without markup. The commodity rate reflects Stittco's cost recovery of the forecasted propane commodity price of \$215/m³ of liquid propane (an increase from the \$182/m³ price reflected in current rates), plus an additional \$74/m³ for delivery to Thompson. Stittco's application also included an adjustment to the PPVA of \$50,012 to be collected from customers (a change from \$10,699 to be collected from customers reflected in current rates).

4.0 BOARD FINDINGS

The Board considers the information filed by Stittco on July 16, 2018, and certified by Stittco to be accurate and correct, to be Stittco's evidence in support of its Application.

The commodity recovery rate sought by Stittco fairly reflects projected commodity and transportation costs. The Board will direct that the propane commodity rate be increased to \$1.1191/m³ for propane consumed on or after August 1, 2018. Propane rates will be reviewed again November 1, 2018.

The Board continues to recommend that customers seek ways to upgrade the heating efficiency of their premises, so as to reduce consumption, bills, and carbon emissions.

5.0 IT IS THEREFORE ORDERED THAT:

Stittco Utilities Man Ltd.'s propane commodity rate be amended on an interim ex parte basis per the attached Schedule "A" effective for propane consumption on or after August 1, 2018.

Board decisions may be appealed in accordance with the provisions of Section 58 of *The Public Utilities Board Act*, or reviewed in accordance with Section 36 of the Board's Rules of Practice and Procedure (Rules). The Board's Rules may be viewed on the Board's website at www.pubmanitoba.ca.
